# SURGERY RESEARCH DAY

Recognizing accomplishments in Research and Innovation in the Department of Surgery, University of Manitoba

# **SPEAKERS**

## **Dr. James Drake**

Professor of Surgery,
University of Toronto
Head, Neurosurgery
The Hospital for Sick Children

## Dr. Kazuhiro Yasufuku

Deputy Head, Division of Surgical Oncology Director of Endoscopy University Health Network Associate Professor of Surgery, University of Toronto

# January 17, 2018

Theatre A
Basic Medical Sciences
Bannatyne Campus

8:00 am-4:00 pm

## **PROGRAM — MORNING**

#### 7:45 LIGHT BREAKFAST

Time Abstract Title

Joe Doupe Atrium—Basic Medical Sciences

#### 8:00 DR JAMES DRAKE, UNIVERSITY OF TORONTO

The Centre of Image Guided Innovation and Therapeutic Intervention (CIGITI) - Engineering Surgical Technology & Training

Introduction—Dr Demitre Serletis (Co-Chair, Research Day 20178Planning Committee)

#### 9:15 OPENING REMARKS - Dr Biniam Kidane (Co-Chair, Research Day 2018 Planning Committee)

PLENARY SESSION Moderator: Dr Ramzi Helewa (General Surgery)

Presenter

	Abstract fille	Fresenter
	Effect of earlier extubation on post-operative delirium after coronary artery bypass grafting: A retrospective cohort study	Ricky Muller Moran* Cardiac Surgery
	Profiling circular RNAs in normal and nitrofen-induced hypoplastic lung development due to congenital diaphragmatic hernia (CDH)	Shana Kahnamoui* Pediatric Surgery
	Does hospital volume impact the risk of local recurrence of rectal cancer? A retrospective cohort study	Megan Delisle* General Surgery
	Predictors of mortality in patients with necrotizing fasciitis: A literature review and multivariate analysis $$	Lindsey Kjaldgaard* Plastic Surgery
	Patient-specific alterations in $\mbox{CO}_2$ cerebrovascular responsiveness in sub-acute sports-related concussion	Michael Ellis Neurosurgery
	Is there oncologic benefit to wider margins in cutaneous melanoma of the head and neck?	Benjamin Turner* Head & Neck Oncology
10:32	Increasing body mass index and hours of sleep lost are associated with a reduction in testosterone levels in US adults males: Results from the National Health & Nutrition Survey	Premal Patel* Urology
10:44	Arthroscopic bankart repair with and without arthroscopic infraspinatus remplissage in anterior shoulder instability with Hill-Sachs defect: Randomized controlled study	Peter MacDonald Orthopedic Surgery
11:00	COFFEE BREAK	
11:00	COFFEE BREAK  BRIEF SESSION Moderator: Dr Perry Dhaliwal (N	leurosurgery)
		leurosurgery) Presenter
Time	BRIEF SESSION Moderator: Dr Perry Dhaliwal (N	
Time 11:15	BRIEF SESSION Moderator: Dr Perry Dhaliwal (N Abstract Title The use of viscoelastic hemostatic testing in cardiac surgery patients: A	Presenter Carly Lodewyks*
Time 11:15 11:20	BRIEF SESSION Moderator: Dr Perry Dhaliwal (N Abstract Title The use of viscoelastic hemostatic testing in cardiac surgery patients: A systematic review and meta-analysis Program director consensus on the status of flexible endoscopy training in	Presenter Carly Lodewyks* Cardiac Surgery Courtney Chernos*
Time 11:15 11:20 11:25	BRIEF SESSION Moderator: Dr Perry Dhaliwal (N Abstract Title  The use of viscoelastic hemostatic testing in cardiac surgery patients: A systematic review and meta-analysis  Program director consensus on the status of flexible endoscopy training in general surgery residency programs in Canada	Presenter  Carly Lodewyks* Cardiac Surgery  Courtney Chernos* General Surgery  Anton Fomenko*
Time 11:15 11:20 11:25 11:30	BRIEF SESSION Moderator: Dr Perry Dhaliwal (N Abstract Title  The use of viscoelastic hemostatic testing in cardiac surgery patients: A systematic review and meta-analysis  Program director consensus on the status of flexible endoscopy training in general surgery residency programs in Canada  Transcranial focused ultrasound neuromodulation in a rodent model	Presenter Carly Lodewyks* Cardiac Surgery Courtney Chernos* General Surgery Anton Fomenko* Neurosurgery Matthew Levesque*
Time 11:15 11:20 11:25 11:30 11:35	BRIEF SESSION Moderator: Dr Perry Dhaliwal (N Abstract Title  The use of viscoelastic hemostatic testing in cardiac surgery patients: A systematic review and meta-analysis  Program director consensus on the status of flexible endoscopy training in general surgery residency programs in Canada  Transcranial focused ultrasound neuromodulation in a rodent model  Maternal substance use and mortality rates in children with gastroschisis	Presenter  Carly Lodewyks* Cardiac Surgery  Courtney Chernos* General Surgery  Anton Fomenko* Neurosurgery  Matthew Levesque* Pediatric Surgery  Chris Nguyen*
Time 11:15 11:20 11:25 11:30 11:35 11:40 11:45	BRIEF SESSION Moderator: Dr Perry Dhaliwal (N Abstract Title  The use of viscoelastic hemostatic testing in cardiac surgery patients: A systematic review and meta-analysis  Program director consensus on the status of flexible endoscopy training in general surgery residency programs in Canada  Transcranial focused ultrasound neuromodulation in a rodent model  Maternal substance use and mortality rates in children with gastroschisis  Metabolic needs of patients with necrotizing facilitis: A case series  Active surveillance for low and intermediate risk prostate cancer: An analysis	Presenter  Carly Lodewyks* Cardiac Surgery  Courtney Chernos* General Surgery  Anton Fomenko* Neurosurgery  Matthew Levesque* Pediatric Surgery  Chris Nguyen* Plastic Surgery  Justin Oake*

## **PROGRAM — AFTERNOON**

#### 12:00 LUNCH BUFFET

Joe Doupe Atrium-Basic Medical Sciences

#### 1:30 DR KAZUHIRO YASUFUKU, UNIVERSITY OF TORONTO

Innovation in Thoracic Interventions for Lung Cancer—Translation from Bench to Bedside

Introduction—Dr Biniam Kidane (Research Day 2018 Planning Committee)

#### PLENARY SESSION Moderator: Dr Mohammad Zarrabian (Orthopedic Surgery)

Time	Abstract Title	Presenter
2:15	Advancement in the quality of operative documentation: A systematic review and meta-analysis of synoptic versus narrative operative reporting	Shannon Stogryn* General Surgery
2:27	The relationship between injury to surgery time and the incidence of secondary joint injury in an ACL injured population: A randomized control trial	Gabriel Larose* Orthopedic Surgery
2:39	Development of risk calculator to predict non-institutionalized survival in patients with prolonged length of stay after cardiac surgery	Rizwan Manji Cardiac Surgery
2:51	Natural talent: Myth or reality? The ability to learn laparoscopic surgery	Giuseppe Retrosi Pediatric Surgery

#### 3:05 COFFEE BREAK

#### BRIEF SESSION

#### Moderator: Dr Michael Yamashita (Cardiac Surgery)

Time	Abstract Title	Presenter
3:20	A systematic review and meta-analysis of the impact of preoperative sleep disturbance on post cardiac surgery outcomes	Aaron Martin* Cardiac Surgery
3:25	Repair of complete distal biceps tendon rupture with the endo-button technique: A retrospective study	Tiffany Huynh* Orthopedic Surgery
3:30	Epithelial cell marker cadherin-26 expression is lower in nitrofen-induced abnormal lung development in congenital diaphragmatic hernia	Lojine Ayoub* Pediatric Surgery
3:35	Long-term outcome of geriatric patients managed non-operatively for choledocolithiasis	Kaitlin Edwards* General Surgery
3:40	A retrospective study of SRS for ARUBA eligible BAVMs at a single centre	Lucas Vasas* Neurosurgery
3:45	Identifying barriers for successful discharge following cardiac surgery	Mackenzie King* Cardiac Surgery
3:50	Factors associated with an increased risk of developing a post-operative infection following spine surgery	Mark Xu* Orthopedic Surgery
3:55	The role of endothenlin-receptor A in the development of pulmonary hypertension of the miR-200b knockout mouse	Chelsea Day* Pediatric Surgery

#### 4:00 CLOSING REMARKS - Dr Demitre Serletis (Co-Chair, Research Day 2018 Planning Committee)

#### SURGERY RESEARCH DAY AWARDS DINNER

Qualico Family Centre | 55 Pavilion Crescent | Assiniboine Park Conservancy

Cocktails—6:30PM (cash bar)

<sup>\*</sup> Speaker eligible for a presentation award

#### **E-PROGRAM NAVIGATION**

An electronic version of the Surgery Research Day 2018 Program is available through our website: http://umanitoba.ca/faculties/health\_sciences/medicine/units/surgery/research\_day.html

#### For quick navigation—

- Click the *colour* typeface located on the various pages within the Program
- Return to the Table of Contents by clicking the footer on the page

#### **WIRELESS ACCESS**

Available University of Manitoba wireless networks:

uofm-secure

<u>Staff</u>: Enter your **UMNetID** and password

Student: Enter your myumanitoba email address and password

#### uofm-guest

This is an unsecured wireless network and intended for guests and visitors. It requires no authentication - only acceptance to the network's terms. Access has lower connection speeds and a limited number of connections available.
